1. **EDS Overview**

EDS is an online service that allows clients to submit specified applications/amendments and documents for surface dispositions to SRD electronically. Presently EDS has 5 subsystems:

- **Public Land Disposition Applications & Amendments** - This selection will enable you to submit applications or amendments for dispositions on public lands for EZE, LOC, MSL, PLA, PIL, REA SML & VCE purposes.

- **Disposition Maintenance** - This selection will enable you to submit AOA Monthly Status Report and create a Site Entry notification.

- **Reclamation Certificate Application Submissions** - This selection will enable you to submit application for Reclamation Certificate on Public Land.

- **Public Lands Disposition Enhanced Approval** - All applications for upstream oil and gas activities, (excluding in-situ oils sands production, oil sands mines operations and those dispositions being applied for through the AOA process) for the disposition types of Mineral Surface Lease (MSL), License of Occupation for access (LOC), Pipeline Agreement (PLA), and Pipeline Installation Lease (PIL) must be submitted through the "Public Land Disposition Enhanced Approval" selection #4, effective September 1st, 2010.

Any disposition applications that are outside of the scope of the "Public Land Disposition Enhanced Approval" selection #4, must be submitted through the "Public Land Disposition Application & Amendments" selection #1, or "Disposition Maintenance" selection #2, as appropriate.

Any disposition application submissions that are in scope of the "Public Land Disposition Enhanced Approval" selection #4, and submitted through any other selections will be rejected.

Any disposition applications submitted through the "Public Land Disposition Enhanced Approval" selection #4, that are outside of the defined scope will be rejected.

- **Application/Amendment Status Check Request** - This selection will enable you to send a request for the status of application/amendment. This must be used to request a status of an application processed by the Industrial, Oil and Gas Applications Unit. For details about each of the subsystems please review the individual User Manual.

EDS will allow clients to submit applications and amendments during extended hours. It will also provide validation of selected data fields at the client workstation thereby assisting the client to minimize the opportunity for errors on the submission.

Applications that are accepted by EDS for uploading to Land Standing Automated System (LSAS) will be assigned an activity number by EDS and emailed back to the client along with a copy of the application. The opportunity that will be provided by this automated system will ensure that clients are provided with efficient and consistent service.

Clicking EDS Website will take you to the SRD external EDS webpage.
Clicking Help will take you to the online EDS manual.

System Overview

EDS is an online service that will allow clients to submit applications/amendments and associated documents such as consents, Environmental Field Report (EFR), Code of Practice and plan package submissions for specified surface dispositions electronically. Specified purpose codes for License of Occupation (LOC), Mineral Surface Lease (MSL), Pipeline Agreement (PLA) and Pipeline Installation Lease (PIL) disposition types are included at this time.

EDS will allow clients to submit applications and amendments during extended hours. It will also provide validation of selected data fields at the client workstation thereby assisting the client to minimize the opportunity for errors on the submission.

In addition, applications that are accepted by EDS for uploading to Land Standing Automated System (LSAS) will be assigned an activity number by EDS and emailed back to the client along with a copy of the application. The opportunity that will be provided by the automated system will ensure that industry clients are provided with efficient and consistent service.
