1. **EDS Overview**

EDS is an online service that allows clients to submit specified applications/amendments and documents for surface dispositions to SRD electronically. Presently EDS has 3 subsystems:

- **Surface Dispositions** allows for submission of specified purpose codes for License of Occupation (LOC), Mineral Surface Lease (MSL), Pipeline Agreement (PLA), Pipeline Installation Lease (PIL), Easement (EZE), Vegetation Control (VCE) and Rural Electrification Association (REA) disposition types.

- **Surface Material Lease** allows for submission of Surface Material Lease (SML) and associated License of Occupation (LOC) dispositions.

- **AOA Maintenance** allows for submission of Area Operating Agreement (AOA) Monthly Status Reports.

For details about each of the subsystems please review their individual User Manuals.

EDS will allow clients to submit applications and amendments during extended hours. It will also provide validation of selected data fields at the client workstation thereby assisting the client to minimize the opportunity for errors on the submission.

Applications that are accepted by EDS for uploading to Land Standing Automated System (LSAS) will be assigned an activity number by EDS and emailed back to the client along with a copy of the application. The opportunity that will be provided by this automated system will ensure that clients are provided with efficient and consistent service.

1.1 **Hours of Operations**

EDS Support help desk is available Monday to Friday 8:15 am to 4:30 pm except statutory holidays. The system is available from 6:30 am to 10:00 pm everyday.

1.2 **EDS Use Restrictions:**

1.2.1 **Dispositions**

- EDS is limited to disposition types MSL, LOC, PLA, PIL, EZE, VCE, SML and REA for processing applications and amendments.
- Applications or amendments processed using EDS at this time must have only one applicant.
- The maximum number of different dispositions types on a plan is two.
- Confirmation Number can only be used once.
- One selected purpose for each disposition type only.
- Multiple plans for an activity will not be accepted.

1.2.2 **AOA Maintenance**

- AOA Maintenance is limited to the submission of the Monthly Status Report

1.3 **Attachment Requirements**

1.3.1 **Documents**

All documents submitted to the department other than the plan submission package and the AOA Monthly Status Report must be in a Microsoft Word (.doc) or PDF format. Documents that require imaging must be scanned to the following standard and converted into a PDF format for submission.

- Black & White 300 dpi
- Colour 150 dpi
The file naming must not contain spaces or more than one dot (period). Use of characters such as *, -, ( ), @, %, $, or % are not allowed in the file name.

### 1.3.2 Plan Package

Other than filing administrative amendments, a plan package is required for all applications and amendments. The plan package is an encrypted file that is produced and downloaded from the Plan Confirmation Service. Within this encrypted file is the plan in a PDF format, CAD drawing and an attribution file, XML.

### 1.4 EDS URL

Within the address bar of the browser, type the following URL:

https://securexnet.env.gov.ab.ca/eds_login.html

### 1.5 Navigation

EDS functions like most web applications on your browser. Please use the buttons provided to navigate to pages required.

4. AOA Monthly Status Report Submission Process

4.1.1 Populating the spreadsheet

See Appendix B for a screenshot of the spreadsheet, and follow the instructions below for filling it out. To first download the spreadsheet, log in to EDS, click the "Area Operating Agreement Maintenance" link, enter in your AOA number, click Next, and below the Cancel and Next buttons you'll have a link "Download AOA Monthly Status Report Excel Template File". Save the file on your hard drive and proceed as instructed below.

The header section of the spreadsheet has to be populated according to the following criteria (fields that are not self explanatory are elaborated below):

1) Company Name.
2) Company Representative – the person to be contacted about the information contained in the spreadsheet report.
3) Phone Number.
4) Date – the date the report was completed in YYYY-MM-DD format.
5) Reporting Year-Month – the month and year to which the AOA Monthly Report corresponds in YYYY-MM format.
6) AOA #.

The table section of the spreadsheet has to be populated according to the following criteria (see Appendix A for a detailed listing of the codes for the AOA Report spreadsheet fields which have a drop-down selection list):

1) Site # - unique numerical identifier (up to four numerals) as per disposition list in AOA Part C.
2) Disposition # - MSL, LOC, PLA, PIL, MLL, MLP, VCE types only. No spaces allowed (i.e. MSL071234).
3) Land – point location of well center for MSL. For linear type dispositions use location of start and end points.
4) Risk Rating – must match to mitigated risk as per AOA Part C (Low, Medium, High, or No Go).
5) Date of Entry – date construction commenced.
6) Date Surface Construction Completed – date initial construction completed.
7) Status of Use Code – one code only (In Use, No Entry, Inactive).
8) Reclamation Status Code – up to 2 codes can be used.
9) Outstanding Reclamation – up to 3 codes can be used.
10) Drilling Waste Disposal Methods – select all methods used (e.g. on-site mix/bury/cover, off-site pump-off).
12) Drilling Waste Disposal # - record if a unique DWD number was issued to track off-site disposal location (e.g. DWD071234).
14) Incidental Activity Area – record size of each incidental activity in hectares (e.g. 0.50 ha).
15) Incidental Activity TFA # - record Temporary Field Authorization number authorizing incidental activity (if issued) (e.g. TFA071234).
16) As Built Submitted Date – record date As Built plan submitted to field office.

If you have more sites than there are rows available in the table, to add an additional site, click the “Add a New Site” button.

To augment an existing site (for example, if you need to enter several drilling waste disposal methods for a single site, or if you are reporting on a linear disposition that spans 2 quarters and would therefore need to enter in “from” and “to” land descriptors), click the “Add Data to Site” button, with the cursor in a cell in the row you’d like to augment.

To delete an erroneous site entry click on any cell in the row you want deleted and click the “Delete a Site” button and then click “OK” to confirm (note this operation can not be undone so make sure you have the right row selected).

4.2 Using EDS to submit the spreadsheet

1) Log in to EDS.
2) Click the “2. Area Operating Agreement Maintenance” link on the main menu screen.
3) Input the AOA Number into the text box and click the Next button.
4) Click the Browse button and locate the completed AOA Report spreadsheet, and then click the Next button.
5) Confirm the information listed and click the Submit button.
6) Click the Finish button.

4.3 Receiving e-mail confirmation

Once the spreadsheet has been submitted you will be sent a confirmation e-mail within minutes.

The AOA Monthly Status Report has been successfully received in EDS.

AOA Number is AOA 060001

**System and Documentation Feedback**

Please send any feedback or suggestions to [eds.support@gov.ab.ca](mailto:eds.support@gov.ab.ca)

- The commitment to submit Monthly Status reports to SRD by the company is outlined in Part C of the Area Operating Agreement.
- A monthly status report including all approved dispositions must be submitted monthly.
- Approved dispositions are considered to be any disposition issued with a Letter of Authority.
- Companies are encouraged to include all dispositions within the operating area, whether they were approved under this AOA, an EFR, or previous AOA. Companies are also strongly encouraged to develop a strategy to include all dispositions within a time frame of 5 years.
